

## MCFI Limited is recruiting a Sourcing Specialist

### Job Description:

The job incumbent shall be responsible for sourcing, negotiating, implementing, and administering long term supply agreements for the assigned commodity areas. He / She shall continuously identify potential suppliers as per technical requirement and negotiate terms & conditions in the most cost-effective way. The job holder shall be responsible for contracts negotiation and management. He / She shall also maintain strong relationships and organise key strategic meetings with stakeholders to foster business growth.

### Responsibilities:

- Negotiates for consolidated purchases in the best interest of the company – assuring lowest price, good quality, on-time delivery and good after sales-service.
- Reviews tender proposals and negotiates contracts within budgetary limitations and scope of authority.
- Controls associated procurement costs according to prevailing annual forecasts.
- Manages marketing data & information and keeps records of market intelligence.

### Profile of the Ideal Candidate

- A Degree in Supply Chain Management/ Sales Marketing/Business Management.
- Strong negotiation skills.
- Excellent interpersonal communication and analytical skills.
- Excellent IT skills (Advance Excel & PowerPoint presentation).
- A minimum of 3 years' experience in similar position.
